Wall-mounted optical splice box SHKON-U

Wall-mounted crosses of the SHKON-U series are intended for placement in offices, control rooms, communication rooms and other serviced premises. The maximum capacity of SHKON-U crossovers is - 32 ports SC, FC or ST. When using LC connectors, the capacity is doubled. Optical cables are cut and fixed in the lead-in area. Further, the fibers in the modules go to cassettes for welding with pigtailed. The adapters fit on 6 or 8 hole strips.

Characteristics

Manufacturer	
Maximum number of line optical ports	32
Type of line optical ports	At the request of the customer
Body material	Steel
Lock type	Cylinder
Max. number of input optical cables	1
Max.diameter of the optical cable, mm	20
Dimensions, mm	266x265x66
Weight, kg	1,9
