Anchor clamp for Figure-8 type cable

Designed for mounting and supporting the cable while ensuring the required tension of the cable line. Consists of open conical body frame, a pair of metal toothed wedges (clamping device) and a flexible bail. All parts are interconnected and cannot be lost. Installed in pairs at the beginning, at the end and in the interval of 5 supports along the length of the cable line. Provides a significant reduction in the duration of the cable suspension process.

Technical characteristics

Manufacturer	
Bail length, mm	from 260 to 250
Messenger diameter over insulation, mm	from 3 to 9
Working load limit, kN	from 2,3 to 2,5
Weight, g	from 0,09 to 0,14
Equipment Clamp, piece	1
